

## Privacy technology as a key enabler for person-centric Location-based Services

Workshop om LBS og springstjenester  
Trådløs Framtid, Oslo, 3. September 2009

Dr. Lothar Fritsch  
Norwegian Computing Center

## Facts about Norsk Regnesentral

- ▶ Independent foundation for applied research
- ▶ Financed by
  - domestic private companies
  - public sector
  - The Research Council of Norway
  - EU
  - international companies
- ▶ Established in 1952 as government computing center
- ▶ > 58 research scientists
- ▶ Turnover 52 MNOK, 7 M EURO

## ICT Research at Norsk Regnesentral

- ▶ Security
  - Privacy
  - Digital forensics
  - Risk management
  - Public Key Infrastructure (PKI)
  - Digital Rights Management (DRM)
  - Mandatory Access Control
- ▶ Multimedia multichannel
  - Video/Audio Streaming
  - Multimedia Metadata & Databases
  - Mobility
  - Games
  - Digital TV
  - Multimedia e-learning tools
- ▶ eInclusion
  - Universal design
  - Product and services accessible by as many users as possible

## LBS motivation

- ▶ Location-based services can provide personalized, context-based, interactive and mobile services.
  - Example: Disaster management with notification
  - Example: Mobile dating
  - Example: Personal navigation with context
- ▶ Challenges:
  - Large-scale deployment with many partners
  - Data retention – law enforcement - profiling

# Legal and business challenges

In a globalized, mobile

- ▶ ...inhomogeneous
  - ▶ Consider privacy retention, t
  - ▶ ...different acceptable
  - ▶ ... various
- These have in application

TORONTO, May 31, 2008

## Canada Launches Facebook Privacy Probe

Social Networking Site Under Investigation After 4 Students Complain Of Privacy Violations

Font size Print Share 1 Comment

**(AP)** Canada's federal privacy commissioner has launched an investigation into Facebook after four students complained that the popular Web site violates Canadian law by disclosing personal information to advertisers without proper consent.

The University of Ottawa law students, some of whom are dedicated Facebook users, allege in a complaint lodged Friday that the social networking Web site has committed 22 violations of the law.

"There's definitely some significant shortcomings with Facebook's privacy settings and with their ability to protect users," said Harley Finkelstein, 24, one of the students behind the complaint.

Facebook has refuted the claims, saying that the complaint ignores key elements of the company's policy.

"We've reviewed the complaint and found it has serious factual errors - most notably its neglect of the fact that almost all Facebook data is willingly shared by users," Facebook chief privacy officer Chris Kelly said Friday in an e-mail.

Kelly said Facebook has worked with Ontario's information and privacy commissioner to create a brochure and video that will educate users about the site's privacy controls.

Social Networks And Profitability

# Trust: Privacy Protection in IT

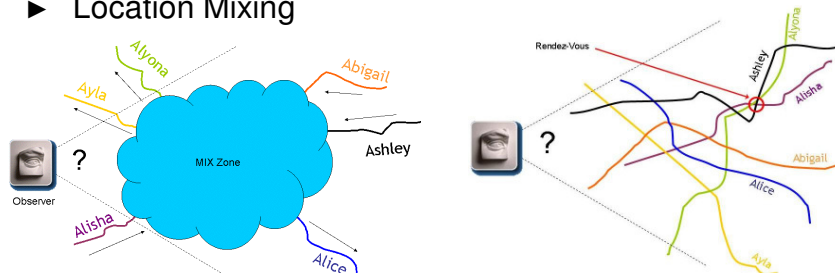

# Duality of Privacy Risks

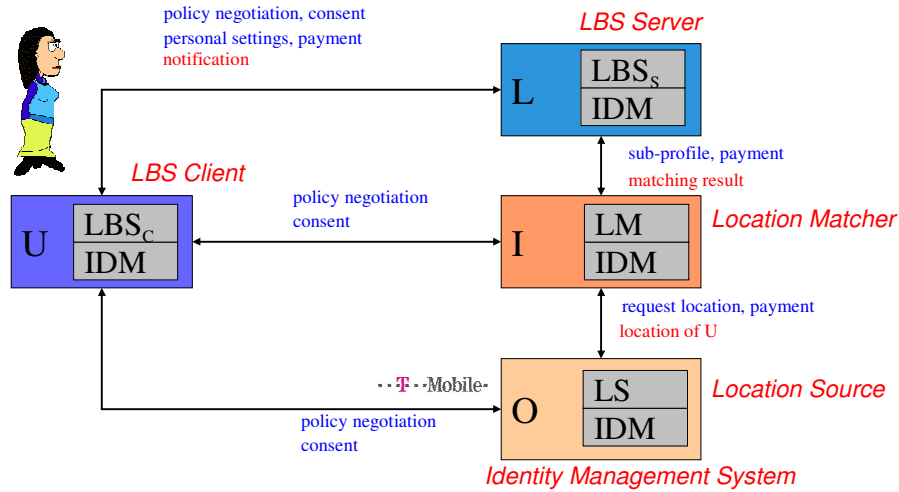

# Approaches: Options

- ▶ Implementation using Privacy-enhancing Technology (PET) and privacy-enhancing identity management (IDM)
- ▶ Definition of access control policies & enforcement
- ▶ Location Mixing

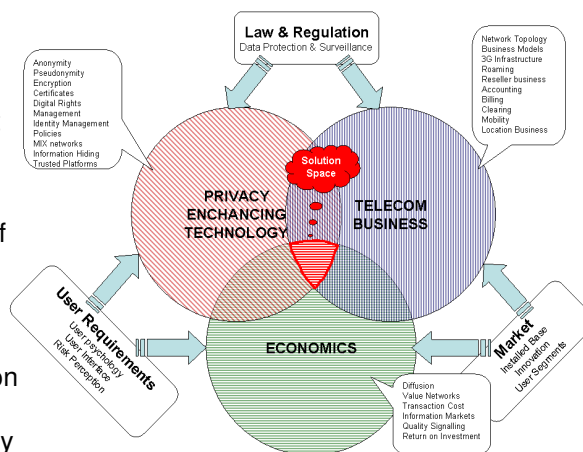

# Approaches: T-Mobile prototype

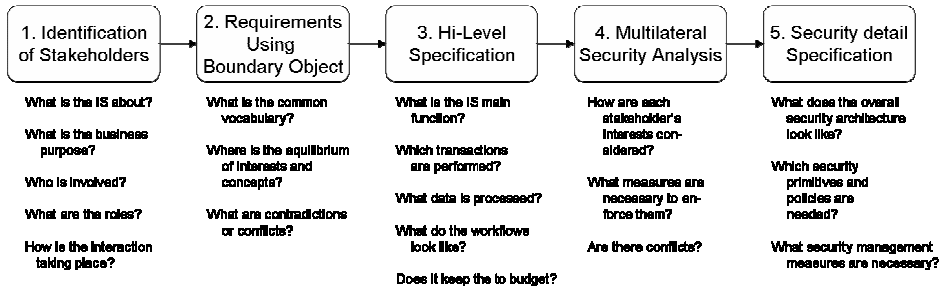

# Conclusion

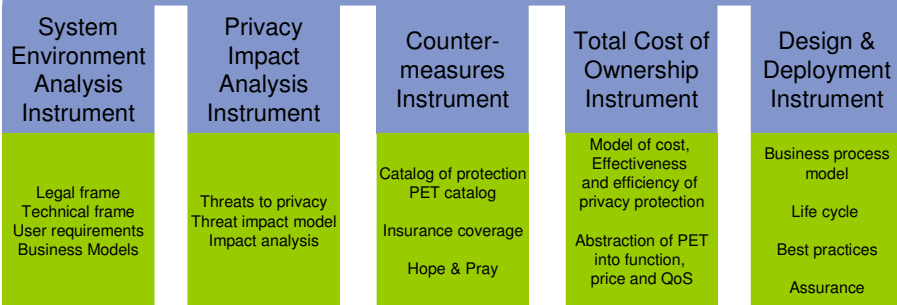

- ▶ Privacy support is an important feature in the application design phase. Designing privacy support is a non-trivial, interdisciplinary task.
- ▶ There is a large number of methods and research results to be used.
- ▶ A mobile communications operator is in a key position to extend its business into that of an identity & privacy provider.

# Process for requirements & multilateral security analysis

## Privacy Investment Decision Instruments

## What can Norsk Regnesentral provide?

- ▶ Scientific research & consulting in security and privacy concepts
- ▶ Evaluation of security systems, properties & privacy impact
- ▶ Preparation of certification or audit
- ▶ Industry- or publicly funded research
- ▶ Open or confidential cooperation
